To be able to process your warranty claim we need a warranty job sheet specific to Cush Corp warrantable items only, RMA. An invoice or job sheet with only Cush warranty items allows us to clearly interpret and review you claim in a timely manner. A warranty invoice with items or labor not the responsibility of Cush Corp may be denied for those items. Warranty allowances are given as standard repair times, the most important thing to get proper warranty approval is upfront communication with Cush about labor and parts needed to complete the repair.
